

WELCOME IN

Your easy guide to unlocking your seaside stay

1

WAKE THE KEYPAD

Run your palm over the number pad to wake the keypad.

The numbers will light up.

2

ENTER YOUR ACCESS CODE

Enter the 6-digit access code shared with you, followed by * (Star).

3

ACCESS DENIED

If the wrong access code is entered, the lock will beep and say "Access Denied".

Try the correct access code.

4

ACCESS GRANTED

If the correct access code is entered, the lock will beep and say "Access Granted".

Press the handle down to unlock and open the door.

5

ENTER & RELAX

Enter the apartment and allow the door to close behind you.

- 🔔 If the wrong access code is entered continuously multiple times, the alarm will go off. 🔔 Allow some time between attempts and then enter the access code.
- 🔔 Before you step out, remember to carry the access code or the phone containing the access code.
- 🔔 Call your host if there is any problem.
